CHOSEN WITH LOVE

Watch Size Guide

Instructions

To identify the best watch bracelet size for you, follow the simple steps below.

1. Print out this page onto an A4 paper. You have to ensure that you do not select 'Fit to page/Page scaling'.
2. Double check the watch bracelet size guide has been printed to the correct scale by using a ruler.
3. If the measurements are confirmed to be to scale, cut out the bracelet following the lines and cut a slit into the bottom part of the bracelet.
4. Wrap the watch bracelet size guide around your wrist and pull the pointy top part through the slit to fasten.
5. Ensure that the bracelet is not too tight: there should be enough room to fit an index finger between your wrist and the bracelet.
6. Read the measurement in millimetres off the bracelet - this is your ideal watch bracelet size.
